ZERO HUNGER

Misamis University, as an academic institution, provides quality education for all, recognizing that education empowers individuals to improve their lives. Extending learning beyond the classroom, the University's College of Agriculture and its pilot farm laboratory support local farmers by teaching innovative and sustainable agricultural practices that enhance productivity and strengthen livelihoods.

The University's dedication to delivering quality education is demonstrated through its Autonomous Status conferred by the Philippine Commission on Higher Education (CHED), ISO 21001:2018 certification, and recognition from the Philippine Association of Colleges and Universities Commission on Accreditation (PACUCOA) for its 22 programs. Further evidence of its educational excellence is reflected in its partnerships and collaborations with international institutions, national government agencies, local government units, communities, and other sectors.

In addition to these institutional academic achievements, Misamis University and its colleges received local awards and certificates from partner agencies and communities for extension programs that directly contribute to the United Nations Sustainable Development Goals, particularly SDG 2, by promoting food security, improving agricultural methods, and supporting local livelihoods.

YOUNG FARMERS FROM MISAMIS UNIVERSITY PROMOTE SUSTAINABLE VERTICAL GARDENING FOR COASTAL RESIDENTS OF BARANGAY BARRA, TUDELA, MISOCC

On May 14, 2025, third-year Bachelor of Science in Agriculture (BSA) students from the College of Agriculture and Forestry of Misamis University, Philippines, conducted a community extension activity through an on-site lecture and field demonstration on Vertical Gardening at the Barangay Barra Covered Court, Tudela, Misamis Occidental. The half-day event gathered 30 coastal residents and barangay officials, who actively participated in the hands-on learning session.

COLLEGE OF AGRICULTURE AND FORESTRY- FUTURE AGRICULTURISTS LAUNCHED SUBURBAN COMMUNITY GARDENING: TEAMNABANGAY GULAYAN SA BARANGAY PROJECT AT BARANGAY BARRA, TUDELA, MISAMIS OCCIDENTAL

In rendering voluntarism and sharing of resources, the Misamis University College of Agriculture and Forestry (CAF) launched the Suburban Community Gardening with the theme of “Gulayan sa Barangay, Teamnabangay”, held on November 24, 2024, at the Covered Court of Brgy. Barra, Tudela, Misamis Occidental. There were eighty (80) participants, mostly represented by the women sector coming from different groups - 4Ps beneficiaries, BPATs, Women’s Organization, Senior Citizens, and members of the Barangay Council.

HYDROPHONICS GARDENING FOR ZERO HUNGER: COLLEGE OF MARITIME EDUCATION STRENGTHENS FOOD SECURITY IN COASTAL BARANGAY BARRA

The College of Maritime Education (CME) of Misamis University reaffirmed its commitment to SDG 2: Zero Hunger by conducting a hands-on training on the Kratky and Hydroponics Methods for home gardening on October 25, 2025, in Barangay Barra, Tudela, Misamis Occidental. This initiative forms part of the livelihood component of the Coastal Resources Regeneration and Alternative Livelihood (CORRAL) Program, designed to improve food security, promote sustainable food production, and empower coastal communities through innovative agricultural technologies.
