DECENT WORK & ECONOMIC GROWTH

Misamis University supports SDG 8 by providing quality education through strong instruction, research, and extension programs. This commitment is evident in the University's various certifications, accreditations, awards, and institutional partnerships with industries, educational institutions, local government units, and civil society organizations. Internationalization programs for faculty and staff further strengthen the University's academic standards and global competitiveness.

These institutional efforts translate into real-world outcomes for Misamis University graduates. MU alumni consistently demonstrate high employability, assume leadership roles in their respective fields, and engage in entrepreneurship and community development. Their achievements, whether in local industries, international workplaces, or business ventures, showcase the University's role in preparing individuals for decent work and notable contribution to economic growth.

This certificate is valid for the following scope:
**Colleges of Agriculture and Forestry, Arts and Sciences, Business & Management,
Computer Studies, Criminology, Dentistry, Education, Engineering & Technology, Basic**

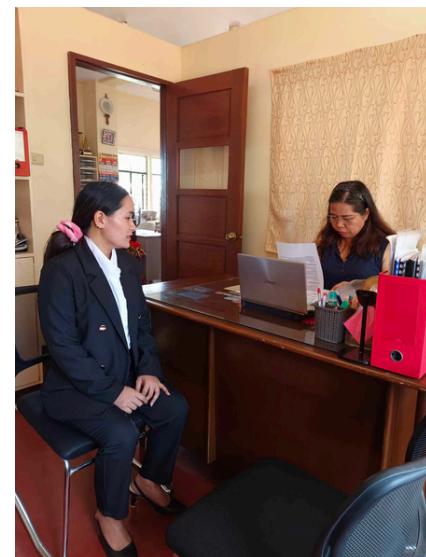

CED MOCK JOB INTERVIEW

EXIT ASSESSMENT FOR STUDENT INTERNS: ENSURING JOB-READINESS AND WORKFORCE COMPETENCY

Misamis University's College of Computer Studies (CCS) reinforces its commitment to producing work-ready graduates by implementing an Exit Assessment for BSIT and BSCS interns, ensuring job-readiness and industry-aligned competencies. Guided by the university's philosophy, vision, mission, and objectives, the CCS internship policy requires students to complete all professional courses before industry immersion and to undergo at least 486 hours of supervised training in CHED-accredited local or international IT companies. To validate practical learning, CCS administers a comprehensive four-part Exit Assessment—including theoretical knowledge, software engineering, network administration, and professional readiness—that contributes to the students' final internship grade. This initiative strengthens the alignment between academic preparation and labor market needs, equips graduates with the skills and confidence required for employment, and directly supports SDG 8 by fostering inclusive, productive, and sustainable workforce participation.
